

SafeMed II Project's Advisory Committee Meeting, Brussels, October 2011

Réunion du Comité consultatif du projet SafeMed II, Bruxelles, octobre 2011

The 6th Meeting of the Maritime Safety Sub-Group of the EuroMed Transport Forum, which also acts as the SafeMed II Project's Advisory Committee Meeting, was organised by the European Commission's Directorates General 'Mobility and Transport' and 'EuropeAid Co-operation Office'. This was held under the auspices of the co-presidency of the Union for the Mediterranean, in Brussels, between the 24 and 25 October 2011.

As part of the 2nd Euro-Mediterranean Transport Forum - Maritime Affairs, Ports and Short-Sea Shipping Working Group, this year's meeting of the Maritime Safety Sub-Group was organised back-to-back with the 8th Motorways of the Sea Sub-Group which deals with the Motorways of the Seas (MEDA MoS) II Project.

The attendance of the National Contact Points of both the SafeMed II Project and the MEDA MoS II Project, as well as the National Coordinators of the EuroMed Transport Project, ensured that a comprehensive yet in-depth view of both Projects was presented.

"This Meeting was an opportunity for all stakeholders to become more up-to-date with the progress and accomplishments of the SafeMed II Project," said SafeMed Project Manager Jonathan Pace. "It also served to highlight the important strides forward made by Project Beneficiaries in the fields of maritime safety, security and marine pollution prevention, while providing a platform for the Mediterranean Partners to share their views on Euro-Mediterranean cooperation in these fields."
